

## Human resources

**Virufy** is looking for help in **website design** and **mobile app development**, as well as **mentorship from AI experts** that have experience with signal processing and audio/medical analysis. For more info and tips: **Amil Khanzada** ([amilkh@stanford.edu](mailto:amilkh@stanford.edu))

**COVID NOW**, a project on **machine intelligence** to summarize breaking **news and data**, is looking for an **AI Engineer / NLP expert**. For more info and tips: **Nick Steele** ([nsteele@stanford.edu](mailto:nsteele@stanford.edu))

**AI vs. COVID**, a project that aims to use **NLP / NLU tools** to extract knowledge from a large dataset of journals and publications to **enable optimized access to information**, is looking for **grant writing help** and **developers** (ideally with foreign language skills). For more info and tips: **Dan Goncharov** ([gdanfx@gmail.com](mailto:gdanfx@gmail.com)) and **Francesco Mosconi** ([f@mosconi.me](mailto:f@mosconi.me))

## Funding & others

**Virufy** is looking for **funding** to run day-to-day operations and expand to hospitals across the world, in order to support data collection staff with budget to purchase PPE. For more info and tips: **Amil Khanzada** ([amilkh@stanford.edu](mailto:amilkh@stanford.edu))

**AccessBell**, a platform that aims to allow **professionals** to open up their calendars and slot out the extra time they have to **help or give advice to those seeking advice**, is looking for any **funding advice / opportunities**. For more info and tips: **Martin Aguinis** ([aguinis@stanford.edu](mailto:aguinis@stanford.edu)) or **Kamil Ali** ([kamilali@stanford.edu](mailto:kamilali@stanford.edu)).
